

## Arrival and Departure

- Caregivers are responsible for their children (including their children who are not receiving services) at all times they are in the waiting areas.
- Caregivers should wait in the waiting areas for their child's Applied Behavior Analysis Tutor (ABAT) to escort their child to their session.
- At the end of the sessions, ABATs will escort their child to the waiting room area.
- If the caregiver brings siblings or other children to the center, they must be attended to at all times. At no time may a child be left unattended. If a child is found unattended, the caregiver may be asked to leave the premises with the child.
