

Great Lakes Center Use of Sun Protection

1. In order to ensure the safety of consumers, the Great Lakes Center for Autism Treatment and Research-OP will be applying sunblock to children during outdoor time at the center.
2. Caregivers may choose to provide their own sunblock to be used by their child while at the center. Staff will assist those consumers, if needed, in applying sunblock before going outside.
3. For those caregivers who have chosen to not provide sunblock for their children while at the GLC-OP, we will supply sunblock to those individuals and staff will assist those consumers, if needed, in applying sunblock before going outside.
